

Features

- Low VSWR
- Ultra-low Insertion Loss
- Phase and Amplitude Stable
- Various Connector Types
- Various Cable Types
- Customized Length and Configuration

**Typical Applications**

- Interconnection of Internal Devices
- System Interconnections
- Electronic Countermeasures
- Communication Systems
- Avionics Systems
- Radar

Specifications and Characteristics

Cable Assembly Series	IFC10	IFC185	IFC24	IFCA292	IFCB292	IFCC292	IFC35	IFCSMA	IFCAN	IFCBN	IFCCN

Temperature Range (°C)	-55~+125					-55~+165						

Notes:

The electrical specifications in this table are based on tests carried out on cable assemblies using straight connectors and tested at maximum frequency.

Insertion Loss depends on the length of the cable assembly (L stands for length using meter as a unit).

Cable assemblies can be matched in phase, delay, and amplitude.
